That is correct. Is CNSL aware of the claim?

CNSL is to transmit a CBI substantiation letter leading to the determination of whether the Plans are CBI.

We will discuss it tomorrow. I have to look into this closer. No CBI is to scanned.

Mark- If you have any documents that have been claimed as CBI, please bring them to the DCA to be logged in.

Before the FOIA process can go forward, a determination needs to be made if the reports are CBI or not. Krystal can help with that determination.

I have not worked out any arrangement with KBTP, but did state to the Director if she would like copies of the SPCC Plans to evaluate the compliant then the Board would need to submit a FOIA Request. Perhaps the \$1 agreed charge is because the agency requires a figure > \$0. Currently, the requested Plans are claimed as CBI by the o/o.

It would take less than 15 minutes to scan those reports; they are handily available on my desk.

Mark—

Please find attached the FOIA Online printout for EPA-R7-2016-000123. The fee limit of \$1.00 concerns me because our minimum charge starts at \$7.00 for 15 minutes of FOIA work. Have you worked out a special arrangement with the Kansas Board of Technical Professions?

Nevertheless, the FOIA references 20 reports. How long would it take to scan those reports?

Let me know.
